ORDERS BY THE HON'BLE THE CHIEF COMMISSIONER OF AJMER-MERWARA.

NOTIFICATION.

Camp Ajmer, the 19th May 1911.

No. 436—1217.—In exercise of the powers conferred on him by section 110 (a) of the Ajmer Land and Revenue Regulation, II of 1877, the Hon'ble the Chief Commissioner is pleased to make the following rules for the assessment of revenue on variably assessed villages in Ajmer-Merwara, in supersession of rules 12 to 25 published in his notification No. 110-695 of the 6th February 1889 :—

1. There shall be two classes of land variably assessed to revenue :—

(i) Areas lying in the beds of certain tanks liable to submergence and not always available for cultivation and which have been demarcated as variable mahals by the Settlement Officer, and not included in class (ii).

(ii) Whole villages which are not given a fixed assessment and which will be assessed at each harvest in accordance with these rules.

2. Lands falling within class (ii) in the preceding rule are not subject to the Irrigation Rules framed under the Irrigation Regulation, II of 1887, except that the land irrigated from 1st class tanks shall continue to be assessed at the rates mentioned in Rule 4 of the Irrigation Rules.

3. In these rules :—

(a) "Assessable area" means an area sown with a crop which is not included in "Nabud area."

(b) "Nabud area" means an area the crop of which yields no outturn or of which the outturn is simply equivalent to the seed grain.

(c) "A fully matured crop" is a crop of which the outturn is 16 annas.

(d) The "soils" shall be classed as :—

Chahi.

Abi.

Talabi.

Barani.

according to the sources of irrigation.

Lands irrigated from different sources shall be classed according to the source most employed : where two or more sources are equally employed, the land shall be treated as belonging to the higher class.

(e) "New wells" are wells designated as such in Mr. Lupton's assessment statements, and those built after 1315 Fasli (1907-1908).

(f) "New tanks and Nadis" shall be those made after 1315 Fasli (1907-1908).

(g) "Chahi land" means land irrigated from wells other than "new."

(h) "Abi land" means land lying in the beds of tanks, Nadis, streams and other channels of water.

(i) "Talabi land" means land irrigated from Government or private tanks or Nadis.

(j) "Barani land" means land not falling under (g), (h) or (i).

4. Soil rates shall be fixed for each area and each village referred to in Rule 1.

Areas referred to in Rule 1 (i).

5. The revenue assessable on lands of class 1 shall be found by applying the rate or rates fixed by the Settlement Officer, to the cultivated area.

6. The cultivated area for assessment under rule (5) shall be taken from the Patwari's Khasra in each harvest Girdawari and tabulated in the form A attached to these Rules.

Villages referred to in Rule 1 (ii).

7. The soil rates for the various villages in Rule 1 (ii) are given in the Schedule attached to these rules, and no alteration in or addition to them shall be made except with the sanction of the Chief Commissioner.

8. Fodder crops for cattle in the hot weather shall not be assessed in such villages.

9. Land under lucerne grass or metha in chahi area shall be assessed only once in the year and one bigha out of the total area of lucerne grass or Metha under each well shall pay only the Barani soil rate.

10. Lands irrigated from new wells, tanks or Nadis or lying in the beds of new Nadis shall be assessed at Barani rates.

11. Abi areas in villages having Variable Agore when irrigated shall pay Rs. 1-9 per acre in addition to the rate given in the Schedule.

12. Bhum and Muafi lands, in each harvest, if irrigated from Government tanks shall be charged water revenue only at a rate amounting to a difference between Talabi and Barani rates. Privileged holdings in the same circumstances shall continue paying Rs. 1½ per acre per harvest.

13. The revenue assessable on villages under class (iv) shall be arrived at by applying the soil rates to the cultivated area after elimination of the Nabud area.

14. Dofasli area shall be assessed only once a year.

Exceptions :—

(1) If the area assessed at a lower rate in Kharif becomes liable to assessment at a higher rate in Rabi owing to irrigation or otherwise, it will be assessed to land revenue in the Rabi harvest at the difference of the two rates.

(2) If the area assessed as irrigated from a Government tank in Kharif is again irrigated in Rabi from the same source, it will be assessed in Rabi at the difference of the Barani and Talabi rates, provided the water be above the sluice level on February 15th otherwise at ½ of the above rate for each watering.

(3) Abi area in Variable Agore if cropped in both harvests, will pay only the irrigation rate (Rs. 1-9), in the Rabi harvest.

(4) The area taking sowing watering alone from a Government tank and not irrigated afterwards, will pay Rs. 1-4 per acre uniformly.

Amount assessed under (2), (3) and (4) shall be treated as water revenue.

15. The assessments shall be made under the superintendence and orders of the Collector, by a Revenue Officer not inferior in rank to the Tahsildar.

16. The Revenue Officer who is entrusted with these assessments shall invariably inspect the crops at harvest time.

17. At the several girdawaris the Patwari shall specify the *nabud* area particularly, writing the word *nabud* in red in the column of remarks of the Khasra to attract the attention of the Girdawar and other inspecting officers, and record the estimated crop outturns.

18. While checking the Patwari's girdawari in general, the Girdawar shall make it a point to inspect all the *nabud* areas noted by the Patwari, and he shall be held responsible for their accuracy.

19. Circle Officers, while inspecting the village, in addition to their own testing of the Patwari's work, shall at each harvest, test at least 10 per cent of the entries checked by the Girdawar. They shall make a note to this effect at the end of the Khasra and enter the Khasra numbers tested and retested. Any cases of glaring discrepancy or wilful under-estimate shall be specially brought to the notice of the Collector through the Revenue Officer in charge.

20. The Girdawar shall, after completion of his checking, make the Patwari prepare under his supervision a Khatauni and abstract for each village in the form B attached to these rules, and shall submit it to the Circle Officer who shall verify its accuracy and then submit to the Tahsildar.

21. The Tahsildar or other officer specially appointed for this duty shall in his inspection at the harvest time, visit each village and satisfy himself as to the accuracy or otherwise of the Girdawar and Circle Officer's testing.

22. The Tahsildar shall then apply the soil rates to the areas given in the abstract submitted by the Circle Officer :—

(a) In case of drought or other bad harvest or damage to crops by natural calamity, if he finds that the outturn over the whole of a considerable tract is below the normal (*i.e.*, 16 annas) and that the loss is over 8 and less than 12 annas, he may obtain orders of the Revenue Officer to reduce the rates by one half.

(b) In case of calamities confined to definite local limits he shall submit a special report to the Collector, who shall pass orders as may be necessary. To meet this special case the Collector may be guided by the spirit of the Suspension and Remission Rules for Calamities of B class.

23. Having thus applied the rates or modified rates as per Rule 22, he shall submit his proposals to the Revenue Officer.

24. The Revenue Officer, who has already inspected the villages at harvest time shall personally check each proposal. He shall then arrive at the final assessment, and shall then submit it to the Collector for sanction in Form B. The Collector shall hold the Revenue Officer responsible for the correctness of the same.

25. The Revenue Officer shall cause the total assessment to be distributed over the cultivator's holdings. This distribution shall ordinarily be effected by applying the actual assessing rates to the assessable areas of the several holdings.

But if the Khewatdars unanimously agree to any other mode of distribution, the total demand for the harvest shall be distributed according to that method.

26. The Collector shall examine each assessment submitted under Rule 24 and satisfy himself as to its correctness, and shall correct or amend it as may seem to him to need correction or amendment. He shall be responsible for the final assessment and shall fix the final demand writing it in his own hand and signing the abstract.

27. The Collector shall then cause the assessments to be formally announced and to be collected in the usual way.

28. An English Register in Form C. attached to these rules shall be maintained in the Collector's office and separate pages shall be assigned to each village. Assessments shall be posted up in this register from harvest to harvest.

29. The assessment shall be credited to heads "Land Revenue" and "Water Revenue" and "Public Works Department" in accordance with the proportion laid down in the Schedule.

30. A brief note of any remarkable event of the harvest or year affecting the revenue history of the village shall be recorded in the column of remarks of the register prescribed under Rule 28.

31. The cesses in force from time to time, at present, $\frac{3}{4}$ per cent. shall be levied on the actual demand of each harvest.

32. The Lumberdar and Patel's fees at the rate of 5 per cent. shall be calculated on the amount actually collected by them.

33. If any damage to crops occurs after assessment, special report shall be made to the Collector who shall dispose of the matter or take necessary orders from the superior authorities.

PART I.

REPORTING OF CASES AND DEATHS.

A.—In Municipal towns.

(1) Every person shall be responsible for making a special report of every case of or death from plague which occurs in circumstances in which, under the ordinary rules of the Municipality relating to the reporting of deaths he is responsible for reporting any death. Such special report shall be made without delay upon the occurrence of the case or death, and it shall be made at the office of the Health Officer or Medical Officer in charge of plague operations if there is one, and at the Municipal Office if there is no Health Officer or no such Medical Officer.

(2) Every report received under Rule (1) shall be communicated immediately to the President or the Vice-President of the Municipality or to some member of the Municipal Committee specially appointed by the District Magistrate to receive reports under these rules.

(3) Every Municipal Commissioner in charge of a ward or any local area, every Muhalladar, and every servant of the Municipal Committee not being an enrolled Police Officer, shall report, to the President or the Vice-President or the member of the Municipality specially appointed by the District Magistrate to receive reports under these rules, the occurrence of all cases of, and deaths from, plague or of excessive mortality among rats coming to his knowledge; and the President, Vice-President or member shall give immediate information of such report to the Health Officer or the Medical Officer in charge of plague operations in the Municipality if there is one. After plague has established itself in the Municipality, the President, Vice-President or member may direct the discontinuance of reports under this rule.

(4) The Health Officer or Medical Officer on receiving a report under Rule (1) or Rule (3), or where there is no Health Officer or Medical Officer, the President, Vice-President or member on receiving a report under Rule (2) or Rule (3) shall send on immediate information of it to the District Magistrate and the Civil Surgeon of the district: after plague has established itself in the Municipality, no such information shall be sent on to the District Magistrate if he directs that it need not be sent, and such information may be sent to the Civil Surgeon, if he so directs periodically instead or immediately.

B.—Of inoculated persons.

The person responsible for and making the report of any case of or death from plague shall also report whether the person attacked or deceased has been inoculated or not, and if inoculated, how long before his attack or death.

PART II.

COMPULSORY REMOVAL OF PLAGUE PATIENTS IN MUNICIPAL TOWNS.

(1) If any friendless or unattended person who is believed to be suffering from plague is found in any public place, he may be removed under the order of a Magistrate, and under arrangements to be made by the Municipal authorities, to a suitable place which the Municipality shall provide for voluntary isolation or for compulsory isolation under these rules.

(2) If a person who is believed to be suffering from plague has, though attended, no home and he and his friends are unable to provide accommodation for him, he may be removed as under Rule (1).

(3) If a case of plague occurs in a serai or other place used for the accommodation of travellers, the plague patient may be removed as under Rule (1) by a special order of the District Magistrate issued in exercise of his discretion. In passing an order under this rule, the District Magistrate shall have regard to the feelings of the inhabitants of the neighbourhood and to the degree in which the removal is likely to be efficacious in protecting the town from an outbreak. When a case of plague has occurred in a serai or other such place as aforesaid, and the plague patient has not been removed under this rule, the proprietor or lessee, and the person who for the time being is in charge of the

serai or other such place, shall be responsible for affixing a notice and a distinguishing mark in a conspicuous place at the entrance of the serai or place for the purpose of intimating to travellers that the place has been infected. This notice and mark shall be retained until the District Magistrate permits their removal. During any absence from the district head-quarters or for any other special temporary reason the District Magistrate may delegate to any Magistrate his powers under this rule, and in the case of a Municipal town not situated at the head-quarters of a district the power given under this rule to the District Magistrate may, in his absence from such Municipal town, be exercised by the Sub-Divisional Officer or the Tahsildar.

(4) If a person suffering from plague is left unattended in a private house, and if after notice given under arrangements to be made by the Municipal authorities no one is forthcoming to look after him, the District Magistrate may authorise his removal to a place of isolation as in Rule (1). The District Magistrate's powers under this rule may be delegated by him, or exercised by the Sub-Divisional Officer or Tahsildar, as under Rule (3).

(5) No person may be compulsorily removed to a place of isolation except under Rules (1) to (4), and, except under Rules (1) and (2), no moribund person may be so removed.
